SUMMARY

I specialize in UX/UI design, product design, and user experience strategy, with 12+ years of experience, I blend user-centered design, research, and front-end collaboration to craft high-performing products that improve usability, accessibility, and engagement.

EXPERIENCE

Digital Designer & Consultant

Freelance | Remote — Febrero 2025 – Present

- Designed UX/UI solutions that improved navigation, accessibility, and brand alignment for diverse digital products.
- Developed wireframes, prototypes, and user journeys, ensuring clarity and engagement in web and mobile experiences.
- Conducted UX research and usability testing, identifying pain points to refine product interactions.
- Advised clients on brand consistency, ensuring scalable design frameworks across multiple touchpoints.

Senior Graphic Designer

IceCare Corp | Remote — November 2022 – February 2025

- Led multi-brand design projects, creating cohesive visual identities for 10+ skincare brands across digital and print.
- Designed promotional materials, packaging, and advertising assets, aligning with international branding standards.
- Implemented automation tools, reducing manual design workload by 50% and accelerating content deployment.
- Optimized production processes, enhancing cross-team collaboration and improving design efficiency.

Senior UX/UI Designer

The Lion | Madrid, Spain — March 2022 – November 2022

- Created and refined UI systems, improving navigation and accessibility across multi-platform digital products.
- Developed high-fidelity wireframes and prototypes, implementing user research insights for data-driven optimizations.
- Led usability testing and A/B experiments, translating findings into UX/UI enhancements that improved engagement.
- Worked closely with developers, ensuring design feasibility and seamless front-end implementation.

Team Lead Web Designer + Senior UX/UI Designer

BinPar Digital Ignition | Madrid, Spain — November 2016 – January 2022

- Managed a team of designers, guiding UX/UI execution across e-learning, e-commerce, and corporate platforms.
- Established best practices for design-to-development handoff, reducing inconsistencies and improving efficiency.
- Facilitated user research and A/B testing, optimizing UX decisions through data-backed design refinements.
- Developed structured design documentation, improving cross-team alignment and ensuring design consistency.
- Built and implemented UI layouts, using HTML, CSS and React, ensuring seamless interactions and consistent brand execution.
- Refined and developed design components, improving accessibility and usability for mobile and web experiences.
- Optimized responsive layouts and frameworks, ensuring smooth performance across multiple devices.
- Integrated UX research findings, refining user flows and enhancing overall engagement.
